WM EASY-TRIM

Square edges and clean lines provide an appearance that is both classic and contemporary. Our Easy-Trim nickel-gap in both 6" and 8" widths is the easiest way to achieve a timeless ship-lap look, and the blind nailing flange feature eliminates face nailing and patching of nail holes, saving both time and money on your project.

WHOLESALE MILLWORK

DOOR SHOP

The accuracy of the plumb and strength of a doorjamb is vitally important to the overall operational durability and security of the door. Casing legs, door stops and astragals also serve important roles in the functionality and aesthetics of interior doors. Wholesale Millwork offers a wide variety of door jambs, casing legs, stops and astragals in both primed and clear pine. We stock multiple sizes in both flat and split jamb options to suit a multitude of applications.

FLAT JAMBS

HARDWOODS & CUSTOM PROFILES

Wholesale Millwork can provide a wide range of custom hardwood species and profiles for any application throughout your home. Please contact your local WM location for more information.

The Legacy collection by Wholesale Millwork will transform your house into a home of distinction, with designs dating back to the mid 1800s. The majority of these profiles are made from a high quality, high density poplar, which allows for clean lines, crisp edges and parallel surfaces. Once shaped, the moulding is primed, buffed, and primed again, delivering an incomparable finish on a superior substrate.

WHOLESALE MILLWORK

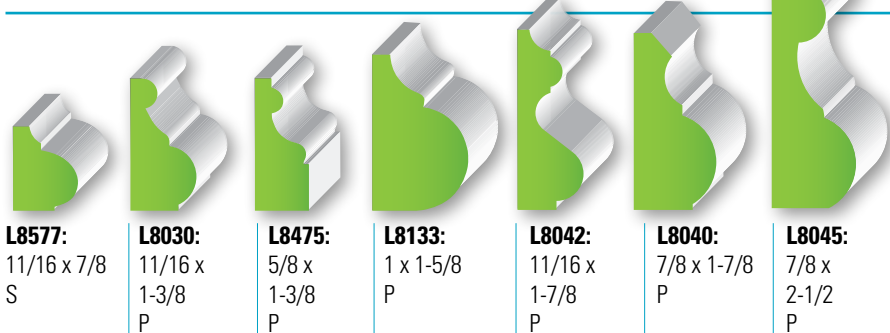

LEGACY MOULDING

Some products are available in Solid (S), Primed (P), and Yellow Pine (YP). Others are also available in Red Oak, White Oak, Hard Maple, Cherry, and African Mahogany.

FLEX MOULDING

A quality, hand-crafted flexible resin that bends to fit curved architecture, flex moulding can be painted, stained, cut, nailed, and glued like standard moulding. Warranted for both interior and exterior use, it performs better than real wood because it does not deteriorate, crack, swell, or rot. With over 4500 profiles available, custom profiles and lengths can be ordered.

ROSETTES & PLINTHS

Rosettes and plinth blocks are both important elements in the layered feel of Victorian architecture. The plinth block serves as a connection between the door casing and baseboard. Rosettes are the cousins of the plinth block, and are found at the top of window and door trim.

Products are available in Solid Pine (S).

MOULDING TIPS

- **BASE CAPS** offer a decorative transition from the S4S base to the wall and are commonly used to design wainscoting panels for less expense.
- **CHAIR RAILS** should be installed at the height of the chair back to protect the wall and offer the opportunity to break up a room into multiple color schemes or panel options.
- **CROWN AND BASE MOULDINGS** are applied in proportion to the ceiling height. Suggestions include:
 - 8' Ceilings: 2-1/4" - 3-5/8" crown mouldings, and 3-1/4" - 5-1/4" base mouldings
 - 9' Ceilings: 4-1/4" - 5-1/2" crown mouldings, and 4-1/4" - 6-1/8" base mouldings
 - 10' Ceilings: 5-1/4" - 7-1/4" crown mouldings, and 5-1/4" - 9-1/4" base mouldings
 - 10'+ Ceilings: Compound crowns and bases to achieve the desirable look, scaling the dimensions proportional to the living space
- **DOOR AND WINDOW CASINGS** are influenced by ceiling heights and door heights.
 - 6' 8" Doors: 2-1/4" - 3-1/2" casing
 - 7' Doors: 2-1/2" - 4" casing
 - 8' Doors: 3-1/2" and larger
- **PICTURE MOULDING**, historically used to hang pictures, is frequently used as an extension of the crown to enhance the wall treatment.

STAIRS

**Crown
Heritage**

STAIR PARTS

Crown Heritage is a national company manufacturing stair systems for the home, and has a rich history spanning more than a half century. The style and beauty of their wood and forged iron stair collections, along with industry leading technical installation developments such as the Crown System® and EasAlign™, make Crown Heritage the residential preference for builders and architects.

A high-angle, close-up shot of a wooden deck. The deck is constructed from light-colored wood planks arranged in a herringbone pattern, creating a series of diagonal lines that recede into the distance. The railing is made of black metal posts and a wire mesh. Beyond the railing, a lush green landscape with trees and some buildings is visible under bright, natural light. The text "OUTDOOR LIVING" is overlaid in the center of the image.

OUTDOOR LIVING

WESTBURY ALUMINUM RAILING

Beauty meets strength. Elegance meets distinction. Masterpiece meets innovative engineering. Westbury® Aluminum Railing was designed with these essential elements in mind. With a variety of designs, colors, and textures, you decide what fits you.

INTEX MILLWORK

Intex specializes in the design and fabrication of custom PVC trim and millwork. Architects and builders rely on INTEX's strengths in both traditional workmanship and engineering technology to craft intricately detailed, high-quality millwork for distinctive homes and buildings. The company has also innovated a line of fabricated, ready-to-install PVC window and door surrounds, and offers standard PVC millwork lengths and decorative accessories.

ACRE™ BY MODERN • MILL

ACRE BY MODERN MILL

A sustainable new material that combines the durability of PVC and traditional composites with the warmth and workability of real wood, ACRE is strong, stiff, lightweight and offers exceptional performance. It looks and feels like wood, but resists water, weather, pests, rot, and splintering. ACRE is easy to cut, drill or fasten using regular tools, producing less static and no harmful dust. Cut edges remain smooth, requiring no heat or glue. Naturally beautiful, low-maintenance, and easy to work with, it can be stained or painted with water-based paints.

• **MODERN-MILL.COM**

Visit the Modern Mill website for more information.

All items are available pre-finished. Contact your local representative for details.

vista

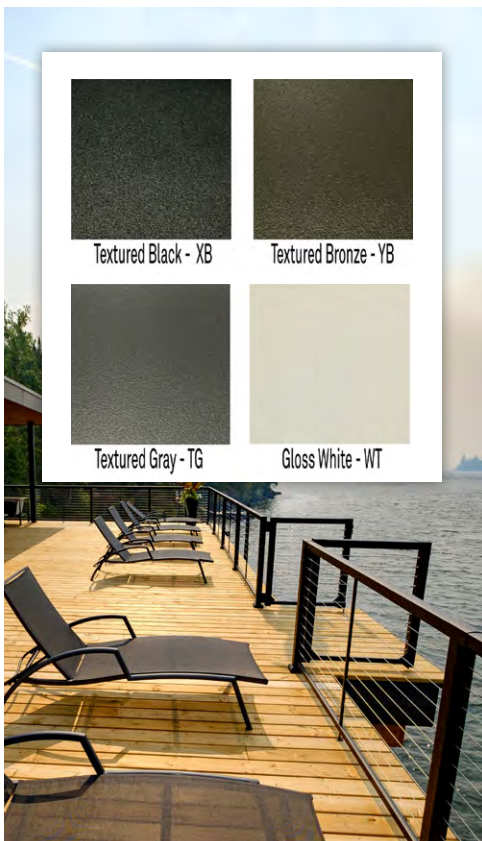

VISTA CABLE RAILING

Vista Cable Railing is an innovative and stylish design that is amazingly simple to assemble. This product is considered ultra low-maintenance to help you spend more time enjoying your deck. Vista Traditional style Deck Railing Kits feature round straight powder-coated balusters. The factory precision pre-drilled rails speed and simplify the assembly process. These kits are engineered to meet National Building Code standards.

XCEED
Siding by VERSATEX

XCEED SIDING

XCEED by VERSATEX is durable PVC siding that adds beauty and elegance to any home or building's exterior. Its unique wood-like appearance in 10 contemporary colors provides a high-end look coupled with the durability and maintenance-free features. Unlike traditional siding options, XCEED is backed by a limited lifetime warranty, providing peace of mind that your building is protected from an ever-changing environment. It is available in two lap siding profiles enabling fewer butt joints and quicker installation. Its unique VZ drop lock helps to ensure each row remains level as row stacks and interlocks move up the wall.

CertainTeed
SAINT-GOBAIN

CERTAINTEED

Today's material of choice for craftsmen is CertainTeed Restoration Millwork®. Like the finest top-grade lumber, Restoration Millwork cuts, mills, shapes, and routs like wood. But since it's made from cellular PVC, it outperforms wood by far—with no worries about rotting, warping, moisture, or insects. As for designability, it's heat-formable for curves and arches, and a choice of Smooth or TrueTexture™ woodgrain finish offers even more options.

STRONG, COMPLETE, AND LOW MAINTENANCE

Will not rot, rust, twist, or splinter.

- Exclusive Self-Locking Screen System™ for screens that absolutely will not blow out.
- Powder Coated Finish hand-applied for a durable lasting finish. Available in 6 colors: White, Bronze, Ivory, Clay, Sandstone, and Black.
- Aluminum Corner Keys keeps the corners tight to prevent door sag.
- Exclusive Thru-Lock System™ doubles the wall thickness where joints intersect for added strength.
- Kick Plate System features a clean look with no unsightly spline.
- Includes everything you need to install today:
 - The Universal Installation Kit
 - 18/14 Mesh Screen
 - 8" Kick Plate
 - All Installation Fasteners

PCA SCREEN DOORS

PCA Products is proud to manufacture all our decorative aluminum screen doors in the USA using materials that withstand the harshest environments. Door frames are made of heavy-duty aluminum with reinforced corner keys for unmatched strength, and screens that can withstand up to 550 pounds of pressure. Our limited lifetime warranty backs up that claim. Here you will see all the features that make PCA screen doors stand out from the crowd.
